COMMENTS TO AUTHORS

Interesting review. Corrections to be made: 1. Put in order the references. 2. What is the meaning of RUQ (in literature review). 3. Tomida's study (reference number 15) it is a non-randomized study: correct in the table. 4. Todd's study (1998) must have the reference number 14 (in literature review).

No mention to a simultaneous antibiotic (different classes) administration was reported. This is an important point in my opinion.
