#### **SPECIFIC COMMENTS TO AUTHORS**

This is a well-drafted case report and literature review about pancreatic cancer with synchronous liver and colon metastases. The authors prepared their manuscript according to the CARE Checklist. Minor changes are required: 1. Page 8, line 174, the word tree should be three. 2. Page 9, lesions in the pancreas and colon were identified simultaneously in four of these cases and only one pancreatic cancer patient was presented with synchronous colon and liver metastases, please cite the references. 3. Minor English polishing is required avoiding any typos or grammatical errors.
