

Consent for Case Report

I,  consent for releasing the microscopic photograph and radiology scans for the purpose of publication of case report and for my treatment.

I have been explained that:

1. no patient identifiable material will be used in the case report
2. this consent does not remove my right to privacy
3. I retain the right to withdraw consent before the case report is made
4. a final version of the report will/ will not be sent to me.
