Increased lipid peroxidation and impaired antioxidant enzyme function is associated with pathological liver injury in experimental alcoholic liver disease in rats ... by enhanced pro-oxidant production or decreased levels of antioxidants or both. ... the relationship between hepatic antioxidant enzymes and pathological liver ...

## Alcohol Alert #64

pubs.niaaa.nih.gov > Publications > 翻译此页

ALD includes three conditions: fatty liver, alcoholic hepatitis, and cirrhosis. Cirrhosis

Name of journal: World Journal of Gastroenterology

ESPS Manuscript NO: 18591

Manuscript Type: TOPIC HIGHLIGHTS

**Relationship among alcoholic liver disease, antioxidants, and antioxidant enzymes**

Kyu-Ho Han, Naoto Hashimoto, Michihiro Fukushima

### Abstract

Alcoholic beverages are a serious cause of liver disease in many countries. The ethanol metabolic process generates reactive oxygen species, considered to play a significant role in the deterioration of alcoholic liver disease (ALD). Antioxidant phytochemicals such as polyphenols regulate the expression of

### Match Overview

There are no matching sources for this report.
