

## Format for ANSWERING REVIEWERS

August 1, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 13470-review.doc).

**Title:** Esophageal variceal pressure influence on the effect of ligation

**Author:** Zhi-Qun Li, En-Qiang LingHu, Min Hu, Wei-Min Li, Qi-Yang Huang and Yong-Wei Zhao

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 13470

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) Title: Esophageal variceal pressure influence on the effect of ligation This manuscript about esophageal variceal pressure influence is vert interesting. In this manuscript, the authors explored the effect of in vitro porcine esophageal variceal pressure on complete ligation degree for polycyclic ligator. Three groups were studied. The results are interesting. Based on the results, the authors concluded that variceal pressure is higher, the effect ligation is worse. 1 Some red color words in the text, what's meaning? Please check it. 2 The text need editing. 3 The references list should be checked, and updated.

(2) Esophageal variceal pressure influence on the effect of ligation

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

*Zhiqun Li*
