Title: Medication non-adherence in bipolar disorder: review of rates, demographic and clinical predictors

Author: Subho Chakrabarti

BIOSTATISTICS STATEMENT

Statistical analyses consisted mainly of estimation of mean and median rates. Student's t test was used to compare the non-adherence rates among different classes of medications. The statistical methods of this study were reviewed and approved by the Dept. of Biostatistics at the Postgraduate Institute of Medical Education and Research, Chandigarh, India currently headed by Drs. R. Sehgal and Pramod K. Gupta.
