### **SPECIFIC COMMENTS TO AUTHORS**

This letter to the editor is supposed to address earlier publication with a commentary. The focus of both papers is on medical humanities and psychiatry in coping with the consequences from COVID-19 pandemic. The views, presented by the authors are interesting and balanced. However the pandemic leads to a variety of foundational transformations in the very definition of mental health and mental disorder, with a significant frameshift towards more liberal understanding of values implicated under COVID 19, e.g. values comprising coherence and quality of life. Therefore the authors may find it meaningful to incorporate (optionally) some of the insights from the next article: <https://www.ncbi.nlm.nih.gov/pmc/articles/pmc8365163/>

**SPECIFIC COMMENTS TO AUTHORS**

Abstract should be organized in content with more focus on psychiatry aspects of COVID-19. I am not really able to follow the proposes of the authors over the written maters, the presented matters do not follow the title as the readers are expecting. I suggest authors reorganize the content more structurally and relevantly with a concluding and definitive suggestion based on.

### **SPECIFIC COMMENTS TO AUTHORS**

Dear authors I have now reviewed of your submission I suggest following comments to promote the MS There is no bridging between paragraphs. The phrase(e.g., COVID-19) must be spelled out when apoated first time. The reference section must be revised. Please, write clearly and remove such words[ (re-)establish resilience, s/he is confronted multi- and transdisciplinary]. Also, Please add what and how your manuscript extend the literature.
