SPECIFIC COMMENTS TO AUTHORS

An interesting case report discussing a timely topic in cancer immunotherapy. Some changes are required in my opinion: - a timeline summarizing the main events of this case report should be included. It would help the readability of the paper - the discussion should be expanded and a more personal perspective should be included - The background of the role of cancer IO should be better discussed, and some recent papers regarding this topic should be included (PMID: 35031442; PMID: 37535194; PMID: 34802383 ; PMID: 32772560), only for a matter of consistency - A linguistic revision is needed.
