COMMENTS TO AUTHORS

Therapy for portal hypertension includes surgical and non-surgical treatments; pharmacotherapy has an important role in the treatment of cirrhosis and portal hypertension. The author has reviewed the medical treatment of portal hypertension, and gave us some information about contemporary concepts of pharmacotherapy for portal hypertension. The paper has some reference value, but the writing of the paper need to be improved. The structure of the paper is very confusing, and subheadings are needed for better understanding.

COMMENTS TO AUTHORS

Author provided well-organized narrative review about medical therapy of portal hypertension on the basis of current medications and possible candidates. The manuscript has three paragraphs (introduction-current pharmacotherapy-candidate drugs. Please add some subheadings in the paragraph for the readability.
