Acute esophageal obstruction caused by reverse migration of gastric  
bezoars: A case report

Zhang FH *et al.* Acute esophageal obstruction caused by bezoars

Fu-Hua Zhang, Xiang-Ping Ding, Jin-Hua Zhang, Lian-Sheng Miao, Ling-Yu  
Bai, Hai-Lan Ge, Yong-Ning Zhou

## Abstract

### BACKGROUND

Bezoars can be found anywhere in the gastrointestinal tract. Esophageal  
bezoars are rare. Esophageal bezoars are classified as either primary or  
secondary. It is rarely reported that secondary esophageal bezoars caused by

---	--------------	------------------	-----------	------------	---	---

A 21-year-old woman was admitted to the hospital with acute abdominal distension and pain for the last 24 hours. Although she had been having intermittent vomiting, constipation and sub-acute abdominal pain for the last two years, there was an acute exacerbation of symptoms with episodes of acute abdominal pain, distension and vomiting for last seven days. The patient had been on medical treatment for intermittent abdominal distension, pain and vomiting by local physicians but there was no history of ...
