### COMMENTS

#### COMMENTS TO AUTHORS:

The authors are congratulated in performing a comprehensive review of caustic injuries of the UGIT. It was detailed and very educational for me as well. Some minor points 1) Materials and methods: typing error "1990-2212" should it be 2012? 2) Page 13, Under "Early surgery". typing mistake: estensive. Should it be extensive? 3) I find including TPN under one of the strategies to reduce stricture formation a bit odd. Suggest to delete from text 4) The title "A look in the future" may be more appropriately named " Other treatment modalities under evaluation: 5) A conclusion should be added
