**Name of Journal:** World Journal of Orthopedics

**ESPS Manuscript NO:** 9508

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

Dear Editor and Dear Reviewers,

Thank you again for your kind and thoughtful comments. Your comments and suggestions have been incorporated in the appropriate place of the revised article. Our responses are listed below.

The article was re-designed according to the first reviewer's recommendations, changes and added parts were highlighted with yellow color.

1- Strategy and results of different studies are summarized in table 2.

2,3- The functional goals at different levels of injury, the medical cost, financial management and pediatric rehabilitation were added to manuscript.

4- Spelling and grammatical mistakes were corrected.

Most of the late published studies were omitted from the article in accordance with the recommendations of second and third reviewers.

1. Recent studies were added.

2.Many reference including the reference number **59** were removed from the article because text was changed comprehensively.

3. References and typesetting were corrected

Thank you again for publishing our manuscript in the World Journal of Orthopedics.

Sincerely yours,

Kemal Nas, MD
