## **Responds to reviewer's comments:**

### **#Reviewer 1**

**Comments:** The presentation for the results of microbial studies with antibiotics sensitivity and for the significance of deep neck infection for the diagnosis or care of Kawasaki disease would be needed.

**Response:** Thank you for advice. We have retrieved related literatures and added discussion on this topic in the revised manuscript.

## **#Reviewer 2**

**Comments:** There are a few grammatical errors like: periamygdala abscess should be removed or described in another way (confusing term from neurology).

**Response:** Thank you for advice. We have reviewed our article thoroughly and revised some expressions to make them clearer to be understood. Moreover, the revised version has been proofread again by professional editors at Editage.
