

December 19, 2019

To whom it may concern,

I am a native English speaker and I certify that I have proofread and edited the manuscript entitled "High plasma levels of COL10A1 are associated with advanced tumor stage in gastric cancer patients", by Laura G. Necula and colleagues, which is under consideration for publication in your journal.

Sincerely yours,

Name: Alexandra Dusa

A handwritten signature in blue ink, appearing to read "Alexandra Dusa", with a horizontal line extending to the right.
