

Dear editors and reviewers,

Thank you for your letter and for the professional comments on our manuscript entitled "Metastatic thymic-enteric adenocarcinoma type responding to chemoradiation plus anti-angiogenic therapy: A case report"(Manuscript NO.: 59705). We have study the comments carefully and completed our revision work. All the revisions are marked in red in the paper. In addition, we have completed the revision of the manuscript format.

The main corrections in the paper and the responds to the reviewers' comments are as following:

Responds to the reviewer's comments:

Reviewer #1:

1. Response to the comment: is it applicable for another histopathological consultation.

Response: we had a consultation on the pathology of the patient with the histopathologist in our institution before the patient received treatment. In the end, we made a diagnosis of the patient.

2. Response to the comment: language needs polishing.

Response: we have re-polished our language by Editage which we hope meet with approval.

3. Response to the comment: what about long term followup of this case.

Response: regarding the patient's long-term follow-up, it is a pity that the patient refused to physical examination for personal reasons, but the patient has been alive for 16 months at the time of writing this article and there is no sign of recurrence.

We believe the scientific quality of this manuscript will be improved according to your suggestions. And we hope the revised manuscript will be published in this journal.

Best wishes,

Pengyu Chang on behalf of all contributors
