**Lower folate levels in gastric cancer: Is it a cause or a result?**

Ali Alkan, Dilşa Mızrak, GüngörUtkan

#### Abstract

Folate deficiency and association with cancer has been studied in literature but its clinical impact is still unknown. Folate deficiency and its results on gastric cancer is a mysterious part of oncology and ongoing studies will clarify its impact on gastric cancer management. Lee *et al* studied the folate deficiency and impact on staging and clinical results. Here we tried to contribute to field by our thoughts about the paper.
