

May 7, 2018

Dear,  
Editor-in-Chief  
World Journal of Gastroenterology

**Title: "The Mediterranean dietary components are inversely associated with advanced colorectal polyps"**

**Number ID: 39021**

The statistical methods of the revised paper were reviewed and approved by Professor Zelber-Sagi from the University of Haifa, School of Public Health.

Sincerely yours

A handwritten signature in black ink, appearing to read 'Zelber S.' with a stylized flourish at the end.

**Prof. Zelber-Sagi**
