## Decision modelling for economic evaluation of liver transplantation

Qu Z *et al.* Decision analytical modelling for liver transplantation

Zhi Qu, Christian Krauth, Volker Eric Amelung, Alexander Kaltenborn, Jill Gwiasda, Lena Harries, Jan Beneke, Harald Schrem, Sebastian Liersch

### Abstract

As the gap between shortage of organs and the immense demand for liver grafts persists, every available donor liver needs to serve the optimum of utility, urgency and equity. To overcome this challenge, decision modelling might gather evidence from other studies and compare the costs and consequences of alternative options.
