Dear editor,

The lead author, Evangelia Giourou, is a General Certificate of Education/ English Language (GCCE London Examinations) certified MD, that is an equivalent of a UK school-leaving or a UK university entrance examination. Dr. Giourou has written and published multiple original scientific papers, conference presentations and book chapters in English language.

The manuscript was re-read carefully by one of the co-authors, Stuart Peter Andrew who is a native English speaker. Mr. Andrew is a U.K. born social care specialist, was educated at British schools including Kendal College and Lancaster & Morecambe College and is currently a Team Leader at Specialist Care Team LDT, Morecambe, Lancashire, providing care and domiciliary support to individuals with mental health problems in his native language. Previously, Mr. Andrew was a Key Worker at Underley Garden School, Children and Adult Learning Disability Services, School Setting, Kirby Lonsdale, Carnforth and a Team Leader at Clover Care Group, Adult Learning Disability Community, Domiciliary and Residential Care Services, Morecambe, Lancashire.

Both authors signed and approved these statements.
