Tight junctions in inflammatory bowel diseases and inflammatory bowel disease associated colorectal cancer

Landy J *et al.* Tight junctions in inflammatory bowel diseases

Jonathan Landy, Emma Ronde, Nick English, Sue K Clark, Ailsa L Hart, Stella C Knight, Paul J Ciclitira, Hafid Omar Al-Hassi

Abstract

Inflammatory bowel diseases are characterised by inflammation that compromises the integrity of the epithelial barrier. The intestinal epithelium is not only a static barrier but has evolved complex mechanisms to control and regulate bacterial interactions with the mucosal surface. Apical tight junction
