Sion, 28th March 2016

Dear Editor-in-Chief,

We hereby send a modified version of our **ESPS Manuscript NO: 25333** entitled **“Gastrointestinal bleeding and obstructive jaundice: think of hepatic artery aneurysm”** for publication as a case report in the ***World Journal of Gastrointestinal Surgery***.

The valuable reviewers' and editor comments allowed us to ameliorate our paper considerably and to clarify several aspects for the future readers.

We responded with the necessary modifications highlighted in the manuscript as requested. There was no source of funding from a grant or a funding agency, and this was clarified on the title page. We also improved style, grammar, and wording of the entire manuscript, which applies to the journal's guidelines. The audio core tip was added.

We hope that you can accept the present version for publication in the *World Journal of Gastrointestinal Surgery* and we are happy to provide additional information if needed.

Sincerely,

Dr Fabrice Vultaggio  
Dr Pierre-Henri Morère  
Dr Christophe Constantin  
Dr Michel Christodoulou  
Dr Didier Roulin
