Prospective Study

Interferon- λ polymorphisms and response to pegylated interferon in Iranian hepatitis C patients

Arghavan Hajmohammadian, Maryam Eshvari, Hossein Shadli, Ali Pourghasem, Elahi Hosseini, Farzesh Mehranmashadi, Mehdi Ghaemmaghami

Abstract

Aim: To evaluate the efficacy of pegylated interferon in Iranian chronic hepatitis C patients in relation to interferon- λ (IFNL) polymorphisms.

METHODS: This study involved patients with chronic hepatitis C referred to the Tehran Blood Transfusion Hepatitis Clinic in 2011. Patients were included in the

Interferon- λ polymorphisms and response to pegylated interferon in Iran
