June 29th, 2018

This document certifies that the manuscript titled “In vivo evaluation of early renal damage in type 2 diabetic patients on 3.0 T MR Diffusion tensor imaging” by Doctor Yuting Wang et al. was edited for proper English language, grammar, punctuation, spelling, and overall style by me.

Neither the research content nor the authors' intentions were altered during the editing process. The language of this document should be ready for publication in my opinion.

Sincerely,

A handwritten signature in brown ink that reads 'Aamer'.

Aamer Chughtai, MD. FRCR. MSc.
Associate Professor of Radiology
