ESPS JOURNAL EDITOR-IN-CHIEF'S REVIEW REPORT

Name of journal: World Journal of Gastroenterology

ESPS manuscript NO: 25938

Title: Aberrant Post-Translational Protein Modifications In The Pathogenesis Of Alcohol-Induced Liver Injury

Journal Editor-in-Chief (Associate Editor): Bei-Cheng Sun

Country: China

Editorial Director: Jin-Lei Wang

Date sent for review: 2016-06-06 08:23

Date reviewed: 2016-06-07 13:42

JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

In this review, authors summarized the novel post-translational protein modifications in alcohol-induced liver injury. By overviewing the global proteomic approaches, they concluded that the chronic ethanol exposure caused aberrant carbonylation, glycosylation, acetylation, sumoylation and so on could potentially damage the protein and impact the pathogenesis in liver. The manuscript is well-written and the comments has been settled properly. We believe that it is worthwhile to publish in World Journal of Gastroenterology.
