Aberrant post-translational protein modifications in the pathogenesis of alcohol-induced liver injury

Natalia A Osna, Wayne G Carter, Murali Ganesan, Irina A Kirpich, Craig J McClain,

Dennis R Petersen, Colin T Shearn, Maria L Tomasi, Kusum K Kharbanda

#### Abstract

It is likely that the majority of proteins will undergo post-translational modification, be it enzymatic or non-enzymatic. These modified protein(s) regulate activity, localization
