

## ANSWERING REVIEWERS

Jan 05, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 7271-review20140105.doc).

**Title: Hepatitis B Virus and Hepatitis C Virus Infection Are Not Risk of Pancreatic Adenocarcinoma in Taiwan**

**Author:** Ming-Chu Chang, Chien-Hung Chen, Ja-Der Liang, Yu-Wen Tien, Chiun Hsu, Jau-Min Wong, Yu-Ting Chang

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 7271

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- (1) We have corrected the "Aim part of the Abstract" as your suggestion.
- (2) The introduction has been shortened as your suggestion.
- (3) The prevalence of HBV and HCV infections in Taiwan was added in the "introduction" section as your suggestion. In the discussion section, we have described "the frequencies of HBsAg, anti-HBs, anti-HBc in our controls were similar to the reported ones from general population in Taiwan (with reference 8 and 11).
- (4) The English has been checked and edited by a English native speaker.
- (5) The "discussion" section has been shortened as your suggestion

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Yu-Ting Chang, M.D., M.S., Ph.D.
