Practice, training and safety of laparoscopic surgery in low and middle-income countries

Alfa-Wali M *et al.* Laparoscopic surgery in low and middle-income countries

Maryam Alfa-Wali, Samuel Osaghae

Abstract

Surgical management of diseases is recognised as a major unmet need in low and middle-income countries (LMICs). Laparoscopic surgery has been present since the 1980s and offers the benefit of minimising the morbidity and potential mortality associated with laparotomies. Laparotomies are often carried out in LMICs for diagnosis and management, due to lack of
