COMMENTS TO AUTHORS

The most important point of writing review is to show the concept / idea / opinion of the theme. I think the authors just summarize other publications. Please show some opinions about hydration therapy for acute pancreatitis in this review.

COMMENTS TO AUTHORS

This paper reviews fluid resuscitation in acute pancreatitis. Unfortunately, this paper dose not receive a high enough for publication. 1, How do the authors select fluid resuscitation in acute pancreatitis using PubMed? 2, Don't the authors evaluate the role of CHDF for fluid resuscitation in acute pancreatitis? 3, Why do the authors evaluate another treatment in acute pancreatitis?
