revealed a malignant transformation of benign sweat gland tumor. Based on this report, the authors rise the awareness for careful examination of these types of tumors in order to distinguish them from benign cystic lesions. In do not have any issues with this manuscript. The case is presented clearly and the text does not need any linguistic revisions. I do not have any specific recommendations.

### SPECIFIC COMMENTS TO AUTHORS

There are many language revisions needed I think a surgeon should be there ! What about safety margin? How can a resection margin of less than 1 mm be considered as a wide local excision? What about axillary lymph nodes?

### SPECIFIC COMMENTS TO AUTHORS

In the case summary section and final diagnosis section, the authors stated that the pathological result was a malignant transformation of benign sweat gland tumor such as hidradenoma. This statement is not clear. Discussion section is a bit long.

### SPECIFIC COMMENTS TO AUTHORS

Dear Authors, unfortunate with one case, you can't build careful discussion. Because you have not any analysis. But I prefer that you add clear tissue figure and also typical tissue of sweat gland tumor adjacent breast tissue. Regards
