Prevalence of colorectal neoplasms in young, average risk individuals: A turning tide between East and West

Leshno A *et al.* Colorectal neoplasms in average-risk individuals

Ari Leshno, Menachem Moshkowitz, Maayan David, Lior Galazan, Alfred I Neugut, Nadir Arber, Erwin Santo

Abstract

AIM: To determine the prevalence of colorectal neoplasia in average risk persons 40-59 years of age in Israel and to compare the results with other populations.

Match Overview

1	Internet 49 words crawled on 19-Jul-2015 www.ncbi.nlm.nih.gov	2%
