

Certificate of Biostatistics

28th June 2021

To whom it may concern,

Title: Associated Mortality Risk of Atypical Antipsychotic Medication in individuals with Dementia (AMRAAD): A Clinical Cohort Study.

Chief Investigator: Dr Peter Phiri, BSc, RMN, PhD

Research & Development Department

Clinical Trials Facility, Tom Rudd Unit

Moorgreen Hospital, Botley Road, West End

Southampton, SO30 3JB, United Kingdom

This letter is to confirm that I have read the SHFT patient-led oversight committee application prepared for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Should you have any queries please do not hesitate to contact me.

Yours Sincerely,

Dr Tomas Engelthaler, PhD

Research Analyst

Akrivia Health, Oxford Centre for Innovation
