

PEER-REVIEW REPORT

Name of journal: World Journal of Gastroenterology

Manuscript NO: 51086

Title: LncRNA NALT1-induced gastric cancer invasion and metastasis via NOTCH signaling pathway

Reviewer's code: 02558978

Position: Peer Reviewer

Academic degree: MD

Professional title: Doctor

Reviewer's country: Taiwan

Author's country: China

Reviewer chosen by: Artificial Intelligence Technique

Reviewer accepted review: 2019-08-30 09:03

Reviewer performed review: 2019-09-06 02:32

Review time: 6 Days and 17 Hours

Comments: 1. The manuscript was well-organized. 2. Although authors mentioned that their study lacked experimental evidence for a direct mechanism (page 23, discussion), I strongly suggest authors try to survey the potent mechanisms or hypothesis from papers and summarize the possible mechanisms to interpret the effect of NALT1 on GC malignant phenotype through regulating NOTCH1 expression at the transcriptional level.
