## Goodpasture's syndrome: Recurrence after a five-year ...

<https://www.sciencedirect.com/science/article/pii/0002934388901143>

Herein is reported the case of a man who has had a recurrence of Goodpasture's syndrome following a five-year remission. The patient presented initially in 1977 at the age of 28 with Goodpasture's syndrome manifested by pulmonary hemorrhage without clinical evidence of renal disease, and positive antiglomerular basement membrane antibody.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2475522>

It is an uncommon condition and is often fatal owing to uncontrollable pulmonary hemorrhage or rapidly progressive renal failure. There have been occasional reports of individuals with Goodpasture's syndrome and normal renal function, either as individual cases or within a series. Here we report a patient with repeated hospitalization for pulmonary hemorrhage with microscopic hematuria and normal renal function.

## The Pulmonary-Renal Syndrome of Goodpasture: Case ...

<https://pubs.rsna.org/doi/abs/10.1148/83.2.314>

Abstract The association of pulmonary hemorrhagic disease and glomerulonephropathy, also referred to as Goodpasture's syndrome (6), is rare in its pure form. This report is chiefly concerned with the correlation of roentgen signs and pathological findings in a case observed from shortly after onset until death six months later.
