Management of gastric and duodenal neuroendocrine tumors

Sato Y *et al.* Gastric and duodenal neuroendocrine tumors: A review

Yuichi Sato, Satoru Hashimoto, Ken-ichi Mizuno, Manabu Takeuchi, Shuji Terai

Abstract

Gastrointestinal neuroendocrine tumors (GI-NETs) are rare neoplasms, like all NETs. However, the incidence of GI-NETS has been increasing in recent years. Gastric NETs (G-NETs) and duodenal NETs (D-NETs) are the common types of upper GI-NETs based on tumor location.
