

## PEER-REVIEW REPORT

**Name of journal:** World Journal of Gastroenterology

**Manuscript NO:** 36285

**Title:** Transplantation of BM-EPCs and BDHSCs from liver-fibrosis rats ameliorates liver fibrosis

**Reviewer's code:** 00503561

**Reviewer's country:** Japan

**Science editor:** Ze-Mao Gong

**Date sent for review:** 2017-10-01

**Date reviewed:** 2017-10-11

**Review time:** 10 Days

		<input checked="" type="checkbox"/> No	

## COMMENTS TO AUTHORS

1. The histological scoring cannot evade its subjective bias. Show the representative fibrotic tissues scored 0,1,2,3. How did the authors manage to evaluate unequal distribution of fibrosis (or resolved fibrosis) in the two sections of the liver each case. 2. This phenomenon would be or would not be true for allogenic system; transplanted by the BD HSC and BD EC of other animals (the same strain)
