

Reviewer1:

Title reflects the main subject of the manuscript. 2. The abstract is clear and summarizes the work described in the manuscript. 3. The case presentation is clear and in detail. 4. Treatment and follow up is clear, and well described. 5. Discussion is excellent. 6. Conclusion is appropriate. 7. Manuscript requires a minor editing, as there are some minor language polishing.

*Answering: Thank you for the reviews, there are no questions to answer.*

Reviewer2:

The manuscript is well written, and the case is discussed well. I suggest to accept the manuscript, and no specific comments.

*Answering: Thank you for the reviewing and there's no specific comments.*

Reviewer3:

Some minor language polishing should be revised.

*Answering: We have reviewed the whole article and revised it.*
