Ethics Committee

**GUC Ethics Committee****Project Information Form – Humans**

Dear Researcher / Course instructor,

To ensure proper handling of human probands, human tissue or blood samples, or personal data that are involved in research and/or teaching purposes, please complete the form below and return it to:

Prof. Dr. Hans-Georg Breitingner, Head, Ethics Committee, hans.breitingner@guc.edu.eg

Type of human involvement:☐

active participation (proband in experiment)

☐

blood/tissue sample(s)

☐

personal data collected

| | |
|---|--|
| Project supervisor/course instructor | Hend El-Tayebi |
| Project/course title | Pivotal role of LncRNA-XIST in regulating immune checkpoint PD-L1 through a shared pathway between miR-194-5p and miR-155-5p in hepatocellular carcinoma |
| Persons involved in the project/course | Sara Atwa, Hend El-Tayebi |
| | |
| | |
| | |

| | |
|---|--|
| Duration of the experiment / course | Start: Sep 2017 |
| | End: Sept 2019 |
| Number of humans involved | 23 |
| Briefly describe the experiments | Isolation of ncRNAs from tissue samples. |
| Has full informed consent been received from all persons whose contribution/sample/data are being collected? | <input type="checkbox"/> yes <input type="checkbox"/> incomplete, completed by <input checked="" type="checkbox"/> Collaborative project, data/samples obtained from collaboration partner |
| If collaborative project, please list cooperation partner(s) and affiliation | Prof. Karim Hosny Department of General Surgery, Faculty of Medicine, Cairo University, Cairo 11562, Egypt |
| Was informed consent obtained at cooperating institution? | |
| Are all samples/data fully anonymized? | <input checked="" type="checkbox"/> yes <input type="checkbox"/> no |
| If not anonymized, explain how personal data protection will be ensured. | |
