Drug eluting biliary stents to decrease stent failure rates: A review of the literature

Joseph Shatzel, Jisoo Kim, Kartik Sampath, Sharjeel Syed, Jennifer Saad, Zilla H Hussain, Kabir Mody, J Marc Pipas, Stuart Gordon, Timothy Gardner, Richard I Rothstein

Abstract

Biliary stenting is clinically effective in relieving both malignant and non-malignant obstructions. However, there are high failure rates associated with tumor ingrowth and epithelial overgrowth as well as internally from biofilm development and subsequent clogging. Within the last decade, the use of prophylactic drug eluting stents as a means
