<input type="checkbox"/> Grade E (Poor)		<input type="checkbox"/> No records	<input type="checkbox"/> Major revision

## COMMENTS TO AUTHORS

The manuscript discusses a very interesting topic. In addition, the manuscript is well written. It presents the results in a clear and well explained manner both in text and in figures. I accept the manuscript. It would be intriguing to conduct further studies to evaluate possible toxicity or pharmacological interference of Glytan with other chemotherapeutics.
