**Introduction of endoscopic submucosal dissection in the West**

**David Friedel, Stavros Nicholas Stavropoulos**

### Abstract

Endoscopic submucosal dissection (ESD) is well established in Asia as a modality for selected advanced lesions of both the upper and lower gastrointestinal tract, but ESD has not attained the same niche in the West due to a variety of reasons. These include competition from traditional surgery, minimally invasive surgery and endoscopic mucosal resection (EMR). Other obstacles to ESD introduction in the West include time commitment for
