JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

Dr. Rapisarda and colleagues have presented an obviously revised version of their manuscript “Hepatocellular carcinoma and risk of occupational exposure” . The manuscript might be of interest for the readers of WJH; however, the authors did not respond adequately to the reviewers comments point by point in a rebuttal letter. They only claimed that “The authors included in the manuscript all the changes requested by the Reviewers auditors. The authors wish to thank the Reviewers for their comments, which have improved the quality of the manuscript.” However a response letter to the reviewer’ s comments is absolutely needed for further handling the manuscript. Also it is not clear whether the English spelling and grammar has been carefully checked by the authors and/or a native English speaker. Therefore, the authors are asked to provide an adequate rebuttalling letter.
