2017年6月18日 - Snapping triceps are also seen more in men than women but at a mean age of 32 years. They are characterized by a snapping sensation mostly medially and can be associated with ulna nerve subluxation and ulna nerve symptoms. US is the diagnostic modality of choice due to its dynamic nature and to ...

Diagnosis and Treatment of Snapping Scapula Syndrome

<https://www.bedfordsackvillephysio.com/.../Diagnosis-and-Treatment...Snap...> ▼ 翻译此页

When bursitis is part of the problem, ultrasound helps guide the physician inject the area. Otherwise, as an imaging modality, ultrasound isn't used much for the diagnosis of the snapping scapular syndrome. Once the diagnosis has been made, the physician's attention turns to treatment. Much research and study has been ...
