

PEER-REVIEW REPORT

Name of journal: *World Journal of Clinical Cases*

Manuscript NO: 87051

Title: Efficacy and anti-inflammatory analysis of glucocorticoid, antihistamine and leukotriene receptor antagonist in the treatment of allergic rhinitis

Provenance and peer review: Unsolicited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer's code: 06143564

Position: Peer Reviewer

Academic degree: MD

Professional title: Doctor

Reviewer's Country/Territory: Poland

Author's Country/Territory: China

Manuscript submission date: 2023-08-01

SPECIFIC COMMENTS TO AUTHORS

In this study, the authors examined the impact of glucocorticoids, antihistamines, and leukotriene receptor antagonists on individuals diagnosed with allergic rhinitis, specifically focusing on their influence on serum inflammatory indexes. The study is well designed and performed. The findings are interesting. Comments: 1. The manuscript should be edited carefully according to the journal's guideline. 2. Some minor language polishing should be revised. 3. The last paragraph should be divided to limit and conclusion.

SPECIFIC COMMENTS TO AUTHORS

This is an interesting study on the effects of glucocorticoids, antihistamines and leukotriene receptor antagonists on patients with allergic rhinitis and their influence on serum inflammatory indexes. After a minor revision, it can be accepted for publication. 1. The abstract is too long, please short it. Especially the methods and results section. 2. A short background should be added to the abstract. 3. Tables should be double checked and moved to the end of the manuscript.
