

## ANSWERING REVIEWERS

June 4, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 18521-review.doc).

**Title:** Asymmetric dimethylarginine as a mediator of vascular dysfunction in cirrhosis

**Author:** Paloma Lluch, Gloria Segarra, Pascual Medina

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 18521

The manuscript has been improved according to the suggestions of the reviewer:

Revision has been made according to the suggestions of the reviewer. We have added at the end of page 6 in the subheading "Role of ADMA in some pathophysiological states" information about ADMA plasma levels in inflammatory diseases and the relation of ADMA levels with inflammatory markers.

In order to avoid overlapping text found in our manuscript we have rewritten 3<sup>rd</sup> and 4<sup>th</sup> paragraph in page 8, 1<sup>st</sup> paragraph in page 9, and "Chronic Hepatitis C" subheading in pages 9 and 10.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Pascual Medina, PhD
