

Answering Reviewers response letter

January 6th, 2015

Dear Editor

Please find enclosed the edited manuscript in Word format (file name: 14217-review ID 02488974)

Title: Klippel-Feil – A syndrome in the occipital-cervical spine field and its dentofacial manifestations

Authors: Trine G. Michelsen, Pernille B. Brusgaard and Liselotte Sonnesen

Name of Journal: World Journal of Stomatology

ESPS Manuscript NO: 14217; ID 02488974 (invited)

The manuscript has been improved significantly according to the suggestions of the reviewers. All the comments and suggestions have been included in the revised manuscript:

- 1) The manuscript has been uploaded as a Word-file
- 2) All parts of the manuscript have been updated according to the format of review. But it was not possible to include at least 100 references as requested because very little has been published in this field. Sorry.
- 3) "No conflict of interest" has been inserted on the title page
- 4) Phone number and fax number has been inserted. Although the fax number is never in use.
- 5) The reference numbers are now put in square brackets in superscript
- 6) As this manuscript is a literature review and description of two cases no statistical analyses have been applied.

The manuscript has not been published elsewhere and there is no conflict of interest.

Thank you very much for publishing our manuscript in the *World Journal of Stomatology*

Sincerely yours,

Liselotte Sonnesen
