### COMMENTS TO AUTHORS

This manuscript summarized HB vaccination worldwide and the possible strategy for non-responders by general doses of HB vaccination. This review article was well-written and included useful information for general readers. Minor comments: 1. Authors ignored the format of the journal, i.e. double space, paragraph arrangement, reference style. Why did authors use dot in some paragraph? Authors should arrange them according to the journal format. 2. Several grammatical errors were found. Please correct them.
