For Systematic Reviews, PRISMA 2009 Checklist and Biostatistics Review Certificate are required. Please find the **Ethics and relevant document(s) required for the different manuscript types in our website: <https://www.wjgnet.com/bpg/GerInfo/239>**.

Please record the content of **Core tip** in audio form (mp3, wav, or other audio format).

Could you please provide the **answering reviewers** of the first-round peer-review? I can't download it for some reason. Thanks for your cooperation.

The authors need to fill out the **STROBE checklist** with page numbers.

The authors need to fill out the **CARE Checklist (2016)** with page/line numbers.

The authors have read the CARE Checklist (2016), and the manuscript was prepared and revised according to the CARE Checklist (2016).

The **Language certificate** file can't be opened, please re-upload it.

Authors should sign the copyright license agreement form with handwriting. Please check the CLA by following link.

If you can't process in the system, please reply me by email to confirm you read and accept the CLA.

Please provide primary version (PDF) of the **Institutional Review Board's official approval**.

In terms of **Institutional-Review-Board-Approval-Form-or-Documents**, please upload the primary version (PDF) of the Institutional Review Board's official approval which should be Chinese version/ the official language of the authors' country (Chinese) to the system. The samples of Institutional review board statement file are attached.

Please upload the PDF version of the **Clinical Trial Registration Statement** document providing the registration identification number and the URL for the trial's registry. The samples are attached. If you have any question, please feel free to contact me.

Please provide **supporting documents of the funds**.

I can't find the **supporting document** of National Natural Science Foundation of China, No. 81670387 in the file. Please verify whether the supporting documents are consistent with the type and number of funds listed in the manuscript. If not, delete those without supporting documents.

Please carefully check the comments in the Peer-re-review report and ensure that a point-to-point response to the questions posed by each peer reviewer is provided (the second-round peer-review report is attached).

Note: To obey the publication ethics and improve the protection of all patients' rights to privacy, the authors should provide the **informed consent form** on which the patient's name, address, birthday, address, ward, bed number, hospital number and other private information are obfuscated.

Please refer to the “Table 1 Ethics and relevant document(s) required for the different manuscript types” in the website:

<https://www.wjgnet.com/bpg/GerInfo/239> and provide the documents required for Observational Study.

The highest single-source similarity index in the CrossCheck report showed to be 8%.

The CrossCheck results showed the similarity to be high. According to our policy, the overall similarity index should be less than 30%, and the single-source similarity should be less than 5%. Please rephrase these repeated sentences.
