

Informed Consent Statement

Name of Journal: *World Journal of Clinical Cases*

Manuscript Type: Retrospective Cohort study

Surgery method choices and the coincidence rate of pathological diagnoses on transduodenal ampullectomy: A retrospective case series study and review of the literature

Feng Liu, Jia-Lin Cheng, Jing Cui, Zong-Zhen Xu, Zhen Fu, Ju Liu, Hu Tian

Informed Consent Statement: Patients were not required to give informed consent to the study because the analysis used anonymous data that were obtained after each patient agreed to treatment by written consent.

Sincerely,

Hu Tian
