#### **SPECIFIC COMMENTS TO AUTHORS**

The review covers much more than the genetic variants in NAFLD, which should be mentioned more in detail in the abstract;so The authors should provide some tables to summarize the main findings from the literature; some sentences, for example page 8, "In conclusion, the PNPLA3 gene acts not only as a main genetic player in NAFLD development but seems to exert its harmful effect also beyond the liver." which should be elaborated more, and be more specific
