COMMENTS TO AUTHORS

It is really the first time to describe a case of primary hepatic angiosarcoma with the clinical and histological evidence of KMS.

COMMENTS TO AUTHORS

Dear Editor, This manuscript reports a case of kasabach merritt syndrome which is a rare clinical entiy. Although there are some case reports of KMS (the authors pointed the previous reports, here the authors clearly demonstraated the entrapment of plateletes and the activation of coagulation cascade in the toumor tissue. My final decision is acceptance of this well written manuscript. thank you kindest regards.
